Important questions to ask the hotel before you book

By asking the following questions, the traveler with special needs can quickly determine if the hotel is disability friendly.

1. What special disability services does the hotel provide? This should give you an indication as to how experienced they are in assisting disabled travelers.
2. What floors are the wheelchair accessible rooms on? If the elevators are not in service, it is important to be near the first floor in case of an emergency. Are the rooms ADA compliant?
3. Does the hotel provide a wheelchair accessible shuttle to nearby tourist attractions and public transportation?

In addition to good wheelchair access, travelers with disabilities are also interested in things such as a swimming pool, hotel restaurants, pet accommodations, and Internet access. While wheelchair accessibility is the top priority for a disabled traveler, many travel agents and travel reservation sites forget that a person with a disability has other needs too.
